

AI Car Finder — Design Concepts

Chat-driven car matching: the customer describes their life, the assistant translates that into technical requirements, and the results panel ranks real cars against them. Two visual directions shown below, both after the full scripted conversation (mountain trips → city commuting → budget & safety).

1a

Friendly, warm-light

TECHNICAL REQUIREMENTS	
Attribute	Value
Drivetrain	AWD — optional, not required
Seating	5 seats
Cargo	Large area, roof-rack ready
Body type	Compact, easy to park
Efficiency	Hybrid or electric
Budget	\$30,000 — \$32,000
Safety	5-star rating, rear-seat sensors

TOP MATCHES

TOP MATCH

Toyota Corolla Cross Hybrid AWD

\$29,800 · 97% match

Kia Niro Hybrid

\$27,450 · 89% match

Honda CR-V Hybrid

\$34,200 · 72% match — over budget ~\$2,200

Hyundai Kona Electric

\$32,900 · 68% match — limited cold-weather range

1b

Premium, dark
